👤 EXPERIENCE

Northeastern University, Boston, MA Jan. 2017 - present
Research assistant for Christo Wilson and Ron Robertson - Network Science Department

- Creating website in Django studying how search ranking affects personal and political opinions of over 100 participants
- Designing application's entire SQLite database schema to store subjects' information
- Configuring application to assign each subject a random treatment of pre-ordered search results and track browsing activities
- Building frontend with ability to switch between different CSS skins to mimic sites such as search sites, social media sites, and job posting sites

PowerAdvocate Inc, Boston, MA Jan. 2018 - Jun. 2018
Software Developer Co-op - Data As a Service Team

- Built upon and delivered completed product, Customer Service Report (CSR), shortening Customer Success team's time to product reports by around 50 times
- Developed all required features virtually from scratch for 3 different kinds of reports, in Spring and Hibernate
- Researched database providers and chose CSR's database to be PostgreSQL
- Aggregated customers' platform usage through Salesforce REST API and Oracle database
- Automated CSR deployment through Ansible

Xemory LLC, Burlington, VT Oct. 2015 - Dec. 2015
Intern

- Created via pair-programming a Javascript editor using C# and Visual Studio
- Integrated syntax highlighting and Javascript interpreting ability to editor
- Developed the editor's ability to communicate with Unity through TCP/IP
